A broken sun, i abandon the earth as you
Try to strangle me down

My spirit bleeds - Open skin,
I'll never pass the portal
Cold nocturnal passage,
The cloned path in it's deep
The fractured tears sears on me
A sterile GOD but fractured icons,
The nightly pressure in parallel paths
The crimson moonlight burns like sulphur
In my eyes

Hell
I summon the beast
To protect my pain

I ABANDON - FEEL THE PAIN I BLEED
I ABANDON - SEE THE PAST I WEPT

A sterile GOD but fractured icons,
The nightly pressure in parallel paths
The crimson moonlight burns like sulphur
In my eyes
