Blessed deviation of departed scars
Edging relic the blast of one tears immaculateness
Converting twilight
That obscure those carrion caresses!
And. gentle pure the blood on my tongue dissolves

Empyrium
Where tears stand still

The candles obscure
The tears inside their soft sleep
And the naked night cries cold beside
Equilibration, golden stream of moonweb so pale
Stygian welkin monument that frozen trinity tears

Empyrium
Where my tears stand still
Empyrium
Where my tears only invisible flows

TRANSCEND
And gentle pure the blood on my tongue dissolves

Empyrium
Where tears stand still
Empyrium
Where my tears only invisible flows
Invisible hurts!!!
