I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes

You zipped thru the stars in a silver shopping cart
Fueled by your faith in miracles
You tend to your garden an eden with a twist
Where the animals and angels recreate

I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see

You were born without a care
You fly where eagles dare
Day or night rain or shine makes no difference
You've learned to forgive all our sins
You receive all things without hate

I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see

You came and offered me a holding company
And you gave away your shares for free
And though it was a sad affair
You just couldn't care
All you could think about was letting go

I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see the world thru your eyes
I wish that I could see
