Do come and see  
We've made a fire  
To drown your polar eyes in  
We'll sail away  
On golden ships

Across the new horizon  
Now everyone  
They stop and stare  
To catch the demons in your hair  
Don't let them bleed  
Your innocence  
Try to prescribe your fashion sense  
Make me jump from station, to station  
All the rest are just pale imitations  
Just how throw it out  
Or plug it in  
And let the wired DJ spin  
The carousel  
It comes and goes  
Where it stops nobody knows  
War is hell  
War is cold  
No matter what the future holds  
Boys and girls  
Let's go for a ride  
Love's a form of suicide  
Just let them be  
And follow me, its easy as  
One,Two,Three  
Make me jump from station,to station  
You move me like no other  
And all the rest are just pale imitations  
We could be like no other  
Do come and see  
Tonight could last forever  
I want to be left all alone  
On my own to write her song  
I'm running away from this paradise  
Before I tell truth of my lies  
My children shall blow the kiss of death  
To you I bestow my last breath

Before the end draws near  
I leave you with my fear  
A place to hide  
A place for realizing  
What ca I be?  
Do come and see
