"I Wanna Have Fun"

Some people go through life and never have any fun
I wanna go with you and baby I've just begun
Some folks are just too cool - never let down their
guard
I wanna make you drool - I wanna leave you scarred

I wanna have fun with you
I wanna have fun on you in you with you near you
I wanna have fun with you...

Baby if we went away - locked ourselves in my room
We could have fun for days and come out on the next
full moon
We could send out for drinks, pizza and chinese food
I don't care what no one thinks - my only need is you

I wanna have fun with you...

Please never go away - please always be my fun
Please be my sun and rain - please be my only one
I'll be the Monkey Man - I'll be the loaded fun
I'll do the best I can - I'll be the foolish one

I wanna have fun with you...
