### "Programming The Herds"

We are all fragile marching vessels, holding absolutely  
no natural  
Knowledge or Logic  
From the origin of man, the human race has been  
ultimately Programmed  
Strategically revised in a series of measures of  
authority  
A Progression constructed by the Supremacists of the  
continually Remodeled world  
Imperfect, Frail, Weak, and truly Vulnerable

Comprehension absorbed is handed down from a  
second source  
For all of man has an aspiration to search  
And an Overwhelming hunger for power and  
domination
