Wizard:

Request permission to free fall
40, 000 feet above the drop zone
I'm on a mission to stop clones
From preaching anti-puppet regime hate speech
First stop: The University of Bob Jones,

I'm a freak
I'm a missile on a mission to heat seek locate hate
Exterminate greed
Double 0 wizard with the aces high
I make you double up your bets and then I take you for
A ride

Chorus:

Permission to freak
It's natural disaster
Permission to freak
It's a natural disaster
Permission to freak
I-m a hazardous blaster
Permission to freak
With the sweet flame of laughter
Permission to freak
A catastrophe
Permission to freak
We do it nastily
Permission to freak
It's puppet mastery
Permission to freak
Permission to freak

Snuggles

Permission to keep a secret
I-m a maestro at covering up cases
With my fiery space flow
Be prepared for a ride
Call the fire brigade, yo!
Water hose at the ready when i-m on the chase
Time told me to go-go get set

No gadget no jet pack not even a head set
Double 0 snuggles when I dribble the trouble
Quadruple the inevitable
I-m on the double!

(Dogger)My mission is meant to twist minds
To inevitable levels of high energy rhymes
To make you blow so
Prepare for the new times coming to get you
Like adrenaline rush from chemical spice
Time told me to keep moving aside
Dodging fake terds like I'm already in the lime light
Double-o-smoke with a hell of a dose
Got a hell of a tendency to make it a freak show

Chorus:
Permission to freak
It's natural disaster
Permission to freak
I-m a hazardous blaster
Permission to freak
With the sweet flame of laughter
Permission to freak
A catastrophe
Permission to freak
We do it nastily
Permission to freak
It's puppet mastery
Permission to freak
Permission to freak
