I am the vengeance, a snake in disguise  
Obsessed with dominance, obsessed with lies  
I am the chaos, controller of minds  
Perfect Machine, evil divine.

Look into my eyes and tell me what you see?  
Fear and despair - your own destiny.  
I am the strongest, I have the force.  
Your life is mine without any cost.

Bleed, die, under command!  
You're falling fast to hell and back!  
Don't try to understand!  
The politics of war games...  
I am the patriot for cash and gold.  
Making the money, making the war!  
Who cares for peace I have my own wish!  
Open the gates of hell, unleash the beast!
