Sittin' around on a Friday night don't got nothin' to
Do
Let's hit the streets lets show em what we can do
Let's gather up everyone pile in the car
Then head down town and hit all the local bars
Let's start some trouble, let's make some noise, let's
Raise some fuckin' hell
How this nights gonna end up I can already tell
Gonna start some fights, cause some chaos, yea shits
Gonna go down
It's just your average night out on the town

It's a senseless act of violence
No real point just in the mood to fight
Out on the town stirrin' up some shit
Stay out of our way cause were comin' for you tonight!

Sittin around now it's Saturday night still got nothin
To do
Let's hit the streets cause they know what we can do

Let's gather up everyone pile back in the car
Then head downtown and go back to the local bars
Let's start more trouble, let's start more fights,
Let's raise more fuckin hell
It's be another Friday night I can already tell
Gonna start more fights, cause more chaos, more shits
Gonna go down
It's just another average night out on the town

No real reason, no real point
Just wanna get out just wanna fight
Just wanna smash just wanna kill
Our motivation is just for thrill
Start some trouble start some fights
Just your average weekend nights
Senseless violence, it's channeled hate
Just for fun we'll seal your fate...
