Visit "[Worn-out](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Its late and I want to call  
Did you think that I could sleep  
I've been thinking about you  
All this time

Its in your eyes  
Something that I've needed  
For a while  
But anyhow  
It doesn't matter  
anyway  
Its over now  
And it just fades away

I saw it coming  
You set your sights on better things  
Just when it looked peaceful  
There goes everything

Its in your eyes  
Something that I've needed  
For a while  
But anyhow  
It doesn't matter  
anyway  
Its over now  
And it just fades away

Its late and I want to call  
Did you think that I could sleep
