[Hook]

I got that drank and that good weed
Shawty tell me what you wanna do
So hurry up and get dressed love
And hit me up when you coming through
I know you got a boyfriend
But I could be your boyfriend number two
And if you looking for a good time
Just meet me at the w

Yeah, bring a couple through
When the club close, we be at the w
The view looking so wonderful
We sip some, smoke some
Get on comfortable
And it's like we don't know what to do
Bitches fuck once claiming they in love with you
Then they wanna fuck the crew
If it's some for me, then it's some for you
Keep it 100, I'ma fuck with you
The planes on, we'll be years tryina fly
I head home with a redbone, my head blown
That's homicide, g's on my circle leave you
traumatized
East side niggas and we doing it big
Fuck to something I don't usually give
Bitches saying they ain't ratchet, but they usually is

She gonn sip on this henny, I'm gonna roll up that
purp
She gonn hop on this dick, and I'm gonn put in that
work
My money flowing like water, she go low like I taught
her
Just like kim kay and ray jay, shit I might just record her
You know they ain't fuckin with my click
Champagne pour, bout to take another sip
Couple goons with me and they wishing they could trip
They ain't ones for talking nigga they be with the shit
Real talk, and I get where the wet panties be
Beat that pussy till it's scared of me

Ask your main broad cause Iâ€™ve been a g
Fucking every single bitch off your familt tree, what

Baby girl you can meet me at the w
My â€¦on, know a devil just come through
We can get it crackin all night you and me
Ride sunset boulevard around 3
Top down with the breeze in the air
While we smokin cause I really donâ€™t care
I keep I couple cause a nigga gotta share
They know Iâ€™m in the burning cause the planeâ€™s in
the air

After good sex, run the bath water
Ready for round 2, get that ass slaughter
She just wanna fuck, she ainâ€™t tryina cuddle
I say we just met, she like nigga I love you
I got big plans, she live in a bubble
I got a girlfriend, donâ€™t get me in trouble
We at the W, I think I took the W
Your girl acting like she can get it
Well she in trouble too
