Swimming in the shallow end  
You won't drown but you won't live  
Wading through the daily mire  
Safe and sound - uninspired

Walking the well trodden line  
You won't get lost but you won't find  
Anything not found before  
Enough for some - i want more

What does not kill me make me stronger  
What does not fill me makes me hunger

Feel that drive - deep inside  
Feel that drive - come alive

Living in the comfort zone  
You won't get hurt but you won't know  
What it is to be alive  
What it means to feel that drive

Hunger drives me on

I hunger for intelligence  
I hunger for experience
