### "Undergod"

Undergod knows what's best for you  
Undergod does what the book tells him to  
Undergod knows what's wrong, what's right  
The undergod sees in black and white

Undergod says you'll burn in hell  
Undergod has forgiveness to sell  
Undergod preys on fear and prejudice  
The undergod promises a better place

Undergod takes life in his name  
Undergod justifies his hate  
Undergod sleeps so sound at night  
And the motherfucker dreams in black and white

Moralise = more lies

The only condition is submission  
The only salvation is him  
The only religion is his religion  
The price of admission; submit

Submit  
On your knees

Feel the shame, feel the guilt  
Feel the great weight from above

Unconditional

Love - unconditional  
Hate - unconditional  
Fear - shame - guilt
