Can somebody save me
'Cause I'm thinking maybe that you can take me piece
by piece
Yeah
And you got your reasons but I didn't need them
And either way I'm on my knees
Yeah

You knew when I was wrong
You say that I'm deranged
And I can see that you're uneasy and it's not gonna
change
And no matter how far
Wherever you

Wherever you go I'm calling
Even when you're breaking my heart
Wherever you go I'm crawling
Even when we're falling
Even when we're falling apart

You say that you're leaving
Say that you don't need him
And all I do is give and you just take
(Ba ba ba dum)
I guess that I knew it
(I can't make it through it)
I can't make it through it but I'm gonna try this anyway
(No)

(You knew)
You knew when I was wrong
You knew that I'm deranged
I can see that you're uneasy and it's not gonna change
(No matter)
And no matter how far
Wherever you

Wherever you go I'm calling
Even when you're breaking my heart
Yeah

Wherever you go I'm crawling
Even when we're falling
Even when we're falling apart
Yeah
Looks like we're falling apart

In your garden where the roses sleep
I can make you anything you wanna be
When that body's close to me
I can give you anything you'd ever need

When I fall to the floor 'cause I can't feel anymore
You can have my heart
Girl you don't have to steal anymore
When I look to the stars
Wherever you are

Wherever you go I'm calling
Even when you're breaking my heart
Yeah
Wherever you go I'm crawling
Even when we're falling
Even when we're falling apart

Wherever you go I'm calling
Wherever you go I'm crawling
Wherever you go I'm crawling
Even when we're falling
Even when we're falling apart
Yeah
I guess we're falling apart
Mmm
Looks like we're falling apart
Yeah
I guess we're falling apart
