One boy  
one girl  
two hearts  
their world  
time goes by  
secrets rise

one more sad song  
tears shed  
she's gone  
She'd take it back if she only could

and all the perfect words they seem so wrong  
she's gone  
you wish that u could learn to see the doors close  
and u wish you could be..  
alone with you  
alone with me  
what can i do? I cannot breathe  
my heart is torn  
for all to see  
Alone with you  
alone with me

best friend  
worst thing  
she's been cheating  
friend decieves  
she leaves

Last date she cries  
whispers goodbye  
she walks once more out that door

and all the perfect words they seem so wrong  
she's gone  
you wish that u could learn to see the doors close  
and you wish u could be  
alone with you  
alone with me  
what can i do?

i cannot breathe  
my heart is true  
for all to see  
Alone with you  
Alone with me

please, please, please, please  
please stay  
don't go away  
the hardest thing is letting go of you  
Please stay, dont go away  
the hardest thing is letting go of you  
what can i do?

alone with you  
alone with me  
what can i do? i cannot see  
alone with..  
alone with...

alone with you  
alone with me  
what can i do? i cannot breathe  
the heart is torn for all to see

alone with you  
alone with me.
