I could never break your heart
I could never break your break your heart again
Listen to me

I could never break your heart
I could never break your heart again
Listen to this song
Listen to this song
Oh

I could never break your heart
I can try but never get too far
Again, no
Listen to me
I can never break your heart
I can try but never get too far
Listen to this song
Listen to this song

Ohhh
Whoom
So slow

I could never break your heart
I could never break your break your heart again
Listen to these words
I could never break your heart
I can try but wouldn't get too far
Again, again
Listen to these words
Listen to these words

Ohm
Ohhh

You're just so late

You're just a dick to me
You won't get no wedding cake
