Pack up your freeins and hold your own there is a storm
to come

Pack up your rockin' chair... (pack up your rockin' chair)

Wait for the river like some captive home in your mind

Baby go back where you come from

Sister, brother hope there's somethin' here to learn

All the money we been brewin' never havin' nothin'
come true

Lay down the chosen share... (lay down the chosen
share)

Statefully shiver someone else a half of the time

Maybe shoot down your brother's heart

And said things you think to be unkind

But leave my heart alone

Got these troubles of my own

Now you've had some time on the road with yourself
again

Unleash the holdin' house... (unleash the holdin' house)

Statefully statin' somethin' isn't comin' your way

While everything you've been for

Is comin' around to your back door

Leave my heart alone

Got these troubles of my own... but just

Leave my heart alone

Got these troubles of my own
