When I think about the times we had together  
Seems like the rain begins to fall  
Cause in your eyes I see no hope for you and me

What can we do with our memories  
What can we do with our me... mories

Can't seem to understand the way I'm livin'  
Not satisfied with the money that I make  
I think I better go see you in a week or so

What can we do with our memories  
Me... mories

The changes that I have made  
The dues to you that I have paid  
How can you treat me this way

What can we do with our memories  
What can we do with our memo

Ries...

I wake up every mornin always smilin'  
Cause in my mind I feel that you're still there  
Next time you start to cry won't you look into my eye  
and tell me

What can we do with our memories  
What can we do with our memories  
What can we do with our me... mories
