(Vince Gill)

She's my baby she looks so good
Y'know she loves me just like she should
She says it feels good to hear me say
I'll always love you all the way

And ya know... she's all mine
And ya know... she's all mine

She always wakes up right by my side
She stood right by me last night when I cried
Said everything's gonna be alright
She asked me to hold her, and hold her tight

And ya know... she's all mine
And ya know... she's all mine

She's my baby she looks so good
Y'know she loves me just like she should
She says it feels good to hear me say
I'll always love you all the way

And ya know... she's all mine
And ya know... she's all mine
She's all mine
She's all mine
She's all mine
She's all mine
She's all mine...
