[Verse]

My world will tell you everything you need to know and
Show you all the reasons I have been stuck in this place
Exactly how I cannot erase these steps that seem to
lead us here.
Look how far we've come.

[Chorus]

Don't stop believing in this, cause time will tell all and
will bring you to bliss
Don't stop believing in me, We're in for the long run
and soon you will see that we have won.

[Verse]

They say that love will guide me but I don't know how it
feels
I'll give it up, take a hit on all the cards life deals
I won't forget the words I said, lost in mind, trapped in
my head.
So don't expect any regret from me.

[Chorus]

Don't stop believing in this, cause time will tell all and
will bring you to bliss
Don't stop believing in me, We're in for the long run
and soon you will see that we have won.

[Bridge]

If I could only speak my mind I'd make you feel and
stop time.
If I could only, If I could

[Chorus]

Don't stop believing in this, cause time will tell all and
will bring you to bliss
Don't stop believing in me, We're in for the long run
and soon you will see that we have won
If I could only, If I could
