Visit "[Heart Of Gold](#)" on MotoLyrics.com

Do you know where I'm coming from?

Well you just don't feel like anyone
Is this the way that you've become?

There's a tree near a patch of grass
We can go and talk about the past
Anything you want to ask

You've got a heart of Gold
You've got a heart of Gold
It's gonna get you nowhere at all
I fear it's gonna get you nowhere at all

In the swell, on a sea of waves
You can find time to appreciate
That I was just a mess that you made

At the dawn of the setting sun
all the seasons mingle into one
And everyone gets blood from stones
You've got a heart of Gold
You've got a heart of Gold
It's gonna get you nowhere at all

Do you ever feel like saving
someone way past saving?
Don't you know we haven't got much time
I wish that I could find the way
to make you stop what doing

You've got a heart of Gold
You've got a heart of Gold
I'm gonna let you know
You've got a heart of Gold

I fear it's gonna get you nowhere at all.
