Found a little piece of nothing and I clung on,  
Because even nothing feels like something  
when something's gone

It's summertime, on the planet helpless  
You gotta save yourself,  
don't wanna scarlet necklace

Say what you mean  
Mean what you say  
Say what you feel  
Feel what you say

Found the head of a marble angel,  
down Sadness Glade  
For the sins of my long-gone-fore-fathers,  
I've surely paid

Your eyes are blue, they're just like Minton china  
Keep doing what you do  
And you'll be non the wiser

Say what you mean  
Mean what you say  
Say what you feel  
Feel what you say
