Bit by a widow
But you're not the one
Who got bit and then died
And dried out in the sun
Woken by frogs
But you're not the one
Who got woken stark crazy and
Neighbored your gun

I have never done a thing like that
I'd wing a bird but I won't skin a cat
And I have never done a thing like that
A modern gunsmith with a broken bat
I have never done a thing like that..

Skeleton and the sun burnt child
Slept domestic and they woke up wild
Dead possum in a barrel
Your dog is rabid your cat went feral

They will bite you on the hand...
