### "Our Last Summer"

Visit "[Our Last Summer](#)" on MotoLyrics.com

i know your summer's over now  
but more is yet, more is yet to come  
and i'll cherish these memories  
of a better past, where i'm not alone

i'll try to dry my tears for you tonight  
i'll try to dry my tears for you tonight

like a bullet to the brain, i'm sharing in your pain  
and i am by your side tonight  
like a bullet to the brain, i'm sharing in your pain  
and you can rest your head tonight

i know your summer's over now  
but the best is yet, the best is yet to come  
and instead of broken dreams  
we'll find a brand new place we can call home
