Made up excuses for everything  
The lies are getting deeper and deeper  
I feel I'm being watched  
Every time I come outdoor  
I don't deserve you  
But I never said I did  
It's the hardest thing  
Because you moved on  
You're too far away from my arms  
I can't sleep anymore  
Made up excuses for everything  
The lies are getting deeper and deeper  
You were the one in my life  
I always held  
You were the one in my life  
You were the one  
It's all over  
It's getting darker  
I messed up this shit  
I can't see anymore  
Just the end at my sight  
You were the one in my life  
I always held  
You were the one in my life  
You were the one  
You were the one in my life  
I always held  
You were the one in my life  
The only one  
Step by step  
You will know less  
Step by step  
You will notice  
That all the voices are gone
