Don't you know
I stand silent
Bring it on
Silent
I can't go back
You turned my life into crap
You made me believe
You stole my heart you're a thief
I wish your life burns now
When reasons are beyond the passion
Rise above
Keep your head up
This is not the way I choose to live
Question yourself
Question yourself
When reasons are beyond the passion
What did you say
I didn't get it
The damned are talking to me
I'm getting crazy
Oh God!
Listen to me, listen
When I'm talking to you
Words go around and
Like you said, like you said
Life cannot be planned
Like you said, like you said
I wish your life burns now
When reasons are beyond the passion
Rise above
Keep your head up
This is not the way I choose to live
Question yourself
Question yourself
When reasons are beyond the passion
Glory sight
So close
So close
So close to die
