

## The Hippos

### "Something"

Visit "[Something](#)" on MotoLyrics.com

Why do you treat me oh so badly, oh so cruel  
I'm just a good boy, needs a good girl, someone cool.

Now I can't live without you  
Now I can't live without you  
Now I can't live without you  
I wanna live

I need a solution  
too much pollution is in my head  
I think about you night and day  
I gotta get away, you're always in my head.

Why don't you call me, you're too busy, I'm too plain  
Why can't you see the things you do they cause me  
pain

Now I can't live without you  
Now I can't live without you  
Now I can't live without you  
I wanna live

I need a solution  
too much pollution is in my head  
I think about you night and day  
I gotta get away, you're always in my head.

I tried to end it, but I know I can't be happy with you not  
around.  
I tried to end it, but I couldn't find an easy way to let  
you down...
