In this world you force the way to go  
But now it's time, for me to throw the first stone  
You gotta be  
You gotta be number one  
I'll see you die,  
I hear the cry you'll end up all alone  
I'll see you running  
I see you hiding - end up all alone  
I'll see you lying  
I'll see you dying - end up all alone  
Watch me rise.  
Watch me bleed I won't bow down to depression,  
oppression.  
I think I got so much to give and take  
Fake words  
It's my values at stake  
I'll break free and set it off  
No fame, no shame  
A lion in this game  
Questions asked no shame  
No regret  
Don't fall for nothing no thrills in life  
A bad dream dream to forget  
Run and hide, seek and destroy  
In this living hell I'm out of the cell  
You said I would fall  
But after I'm still standing tall break it down
