For twenty five years we lived in shame  
Hidding our faces sedated in pain wa  
Came to a new turn we break the mold  
Falling asleep a dream coming true  
Tua dependecia gerou repressao  
Medo de viver mostrar a razao  
Para outrO destino continuares o meu caminho  
Tu vais acabar por morrer sozinho  
Although the frames still hurt me I found a way  
My path of liberty I took an oath I'll  
Never be like you. you hide in a mask  
But we know the truth  
Todas as noites  
Os dias passaram  
A magoa ficou  
A dor nao passou  
Por mais que tente esqueÃ§er vou  
Conseguir fazer um passo de gigante  
No more... it's coming to an end I'm breaking free  
No more I find a way my path of liberty this  
Life this is the darkness that we know tonight  
My tears dry on their own
