"Find Me A Family"

Visit "[Find Me A Family](#)" on MotoLyrics.com

I take my life one day at a time
So many dreams that come and go in my mind
Is this a new beginning a time when fools are winning
Everybody needs something to believe

The world we see is changing so fast
No guarantees how long does a feeling last
One look can tell a story
My future's waiting for me
Let it be with you make it all come true

And find me a family
Somewhere to go where I can belong
That special place that I can call my home
You know I'm gonna find it someday
Please let me stay
Find me a family
I gotta know that somebody cares
I need a chance I got so much to give
If you can find me a family
Find me a family

I live and hope and whisper a prayer
when I come home that you will be waiting there
It's just a breath away and all you have to say
is stay with me tonight
You know it sounds so right

chorus

Find me a family x6
