"Here In My Dreams"

Starlight on my face
Moonbright on the ground
Fill this empty space
Rest the travel-bound

After weary days
Lady Luck please smile
show the many ways
We can go where wishes go
Let's chase the shadow-child

Here in my dreams
love is warm love is golden
causing me to believe
I have touched I have seen

Sunshine of the night
dance on crystal streams
All the things that wishes bring
are living in my dreams

chorus

verse 3
