"Kill Me Quick"

Life is good looking through the eyes of love
beautiful looking through the eyes of love

But you know I'm telling you girl
life ain't all the same
Take a look take a look around you now
You'll find that
though it seems great life is just a crazy scene

You and me seem to see right through a haze
People laugh but we both know that it pays

chorus

I want you to know how I feel
When you go the world ain't real
I want you to know how I feel
When you go the world ain't real

It's all balanced on the keen edge of a knife
Let's all laugh at the craziness of life

chorus
