Always there when I want you
I know you'll answer my call
We've got our own situations
We don't get into small talk

Let it pour
Whoa oh, let it pour
Whoa oh

Fate brought us together
We knew we'd both fall
Shouldn't really have happened
It caught us on the rebound, baby

Let it pour
Whoa oh, let it pour
Whoa oh

It always rains when I see you
But we weather the storm
We get on with the action
So bring on the black clouds, baby

Let it pour
Whoa oh, let it pour
Whoa oh

You belong to somebody
You ain't mine I ain't yours
It doesn't really matter
So let's close the door

It's never easy to leave you
Don't like you lockin' the door
So raise your glass to the next time
though my cup's overflowing baby

Baby, let it pour
Whoa oh, let it pour
