You leave me sad and lonely
Sitting here oh so blue
Since you went away and told me, baby,
Yeah that we're through

Now baby, c'mon (c'mon little lover)
Yeah c'mon (c'mon little lover)
Yeah c'mon little lover
C'mon and discover
My love for you

Trying to forget you
Getting you outta my mind
I'm gonna search all over this world
And find some other kind

Now some other lover (c'mon little lover)
Some other lover (c'mon little lover)
C'mon little lover
C'mon and discover
My love for you

Break

Writing you a letter
Feeling oh so blue
I've been crying my heart out baby
Since you said we're through

Now baby c'mon (c'mon little lover)
Yeah c'mon (c'mon little lover)
Yeah c'mon little lover
C'mon and discover
My love for you
