Louise
Coming on strong' can't be too long
Gotta get what my body needs
It needs Louise

Louise
Gonna break my heart, gotta make a start
Gotta get it together with Louise
Ooh Louise

Queen in blue jeans,
boppin' at the hop,
alive with the jive
rollin' with the rock
Louise

Baby gonna move like lightning
Don't blink your eye
The speed I'm gonna do is frightening
Everybody move on over
I'm electrified
The speed's comin' through like a nova

Mr Dynamite I'm burnin' up the night

Get ready for the big explosion
Call in the reserves there's gonna be a chain reaction
