Musical pictures colouring in the sound  
Touching the feelings writing my thoughts down  
Something that I can share with you

I can get carried away carried away carried away by  
the melody  
'Cause I can't say what I really mean with words  
I'm tryin so hard to reach you  
I hope that I'm getting through

Musical pictures scenes from a song  
You're instrumental  
You're where it comes from  
It's easy to play along

chorus

Silence is my canvas I can paint a sad song - blue  
And make musical pictures any way I want to

I'm tryin' so hard to reach you  
I hope that I'm getting through

chorus x2
