There was magic all around
People swaying to the sounds of the music
There was laughter in the air
There were lovers everywhere such romancing
There was dancing in the street
Everyone was on their feet
You just can't sit down
There was starlight in the sky
I was blinded by the light
What a night for love

I knew you were leading me on
I follow I feel I belong
I'm falling I've lost control
You've taken my heart and my soul
Naomi
Naomi
Naomi
Naomi beggin' darlin' please

The magic all around - was Naomi
The starlight in the sky - was Naomi
Knew you were leading me on
I follow I feel I belong
I'm falling I've lost control
You've taken my heart and my soul
Naomi
Naomi
Naomi
Naomi beggin' darlin' please
