"No Rules"

Don't give me your problems
I got plenty of my own
Everyday you come around here
Giving me your own set of moans
I don't want a situation
going nowhere I ain't planned
So you better listen here
while I try and make you understand

No rules no ties
No rules no lies

Take me as you see me
take me any way I am
I'm no victim man
I'll just come and see you if I can
I don't want no long term ties
Fantasise two-faced lies no way
So you better listen here
while I try to make you understand
