Life ain't worth a-livin'
People just been givin' me
Friendship happiness is what everybody deserves
But she gives me everything I want

Oh I don't have to ask for everything I get
Everyone just lets me down
Tries to make me look like a fool
Won't accept me for what I am
They say I got to live by the rules
But she gives me everything I want

Oh I don't have to ask for everything I get
It's gotta end sometime
How's it gonna be yeah
Are we wrong or are we right
It's gotta end sometime
Calling you and me yeah
It's gonna take a long long time

Seems like they don't give a damn
Won't let me live just how I want
They say I'm a down-and-out
But it's them that's wrong
But she gives me everything I want

Oh I don't have to ask for everything I get

verse 3

Cos' she gives me everything I want (We don't need
nobody else)
