Another day has passed away
Another day without you
Here comes another lonely night
One more broken promise gone
One more teardrop from your eye
I suppose that I'll survive

What am I gonna do
What am I gonna do

To find the words it's hard to say
You don't wanna hold him
Or leave him all alone
You've been together for so long
Now the feeling's gone
You can't see what's right or wrong

chorus

I know it's hard to tell him
You wanna go
It shouldn't take this long
to let him know
I know I feel it's gonna be my time
There's still the question
when will you be mine

chorus

verse 1

What am I gonna do
