"You Gave Me Strength"

You gave me strength when I was weak
You gave me hope instead of thinking of defeat
You gave me joy when things were sad
Put in the good took out all the bad

I was a loser with you I won
Now I'm doing all the things I left undone
Brought back the feelings I thought were gone
And it's only the beginning and we've only just begun
Now my life has changed in oh so many ways
I have no doubt who I follow
I know you're with me in every step I take
Leavin' behind me all my sorrow

verse 1

You gave me joy when things were sad
And it's only the beginning cause we've only just begun

You gave me joy when I was weak
You gave me hope instead of thinkin' of defeat
You gave me joy when things were sad

And it's only the beginning cause we've only just begun
