"Do It For You"

Visit "[Do It For You](#)" on MotoLyrics.com

Well I guess that we all know
That one day we'll all go
To that place high in the sky
Where we'll find out what and why
But for now just live your life
Do what you can to avoid all strife
Walk around with a friendly smile
Cause we're here for just a little while
So find love and happiness
I wish we all could live like this
Woh
Do it for you
Woh
Because you have to
Woh
Do it for you
Woh
Because you have to
Life like this would be so grand
Together forever we'll all stand
Untied despite our preferences
We'll overcome our differences
Lead forward my heart and soul
So we can reach a common goal
Walk around with a friendly smile
Cause we're here for just a little while
So find love and happiness
I wish we all could live like this
