Dream on back to when we were alive  
Now it's about making money to survive  
Getting jobs and doing work well I'm not one to talk  
Cause all I know is I can't walk that walk  
Growing and getting old sucks so god damn much  
Jumping up and screaming this is so damn tough  
I wish I was still playing with He-man  
Not a worry in the world  
Not a worry about no girl

I wish I was still playing with He-man  
I wish I was still a little fucking kid  
Trying to find a girl ain't that easy  
To some it comes quick but me I just get queasy  
All the silly games that they all play  
And God I never know what the hell to say  
Growing and getting old sucks so god damn much  
Jumping up and screaming this is so damn tough
