Cigarette dangles, makes me hard  
Kidnap me, throw me in the back of your car  
Take me to your room where the flowers hang like bats  
Poison me with liquor then break out the party hats

Kiss me till you hurt me, then again until I'm numb  
Burn holes in my neck with the venom of your tongue  
Remind me again how lucky I am right now  
Laugh at my body but then turn off the light and put out  
Cigarette dangles

(I wanna ride the big wave)  
Cigarette dangles  
(Open up the bomb bay)  
I wanna ride that wave

Your cigarette dangles, my flesh is weak  
Pedal to the metal darlin', 'cause I'm about to peak  
Now sit up straight, hook your legs through the rocking  
chair  
I wanna find a new way to show you how I care  
Cigarette dangles

Move your hair off your face so I can find your lips  
Want to taste pepper on your mouth and on your  
fingertips  
I hear the cats scratching at the door  
You say, "I'll feed them later, get back on the floor"  
Your cigarette dangles

Move your hair off your face so I can find your lips  
Want to taste pepper on your mouth and on your  
fingertips  
I hear the cats scratching at the door  
You say, "I'll feed them later, get back on the floor"  
Your cigarette dangles
