One night you might decide
You want to sleep so deep that you rise into the sky
One moment everything becomes clear
You want the sun to stop shining so bad
That you just close your eyes

Oh no, it's not the worst thing you can do, oh
Oh no, might be the only thing you can do
When the sky comes falling down, oh
When the sky comes falling down, oh

One morning you might look at yourself
And see your shadow has left you
And you're at the end, you're at the end
When you discover you've stopped dreaming at night
And the man that you saw as a child
Is misshapen and bent

Oh no, it's not the worst thing you can do, oh
Oh no, might be the only thing you can do
When the sky comes falling down, oh
When the sky comes falling down, yeah

One moment everything becomes clear
You want the sun to stop shining so bad
That you just close your eyes

Oh no, it's not the worst thing you can do, oh
Oh no, might be the only thing you can do
When the sky comes falling down, oh
When the sky comes falling down, yeah

When the sky comes falling down, oh
When the sky comes falling down, oh
