"Polar Bear"

I see you chippin' away again
Your own icicle island

Haulin' alone
The lies and the bones
Hopin' to fade and
Disappear into the white
A polar bear

A moat of icy water
No end in sight, save your own
I know that look
Of fear, I'm well aware
No need to brave it all alone
I'll be there
I'll be there

I see you chippin' away again
Your own icicle island
I know that look
Of fear, I'm well aware
No need to brave it all alone
I'll be there
I'll be there

Hopin' to fade and
Disappear into the white
A polar
