Good morning, wake up sleepyhead.  
You've got twenty-four seconds to get out of your bed.  
Before the world starts spinning, it can mess with your  
Head.  
Try it's best to redirect you from what's waiting  
Ahead.

Don't look around.

Whatever it comes to, I'm not gonna lose you.  
Whatever we go through, I just wanna love you.

Good morning wake up innocent eyes.  
Did you dream that you were flying in impervious  
skies?  
Does it break your heart to wake up and leave it  
Behind?  
It's not safe here but it's better than to live in a

Lie.

So say goodbye.

Whatever it comes to, I'm not gonna lose you.  
Whatever we go through, I just wanna love you.

I know your scared, hardly prepared, but now we're  
here  
And every thing's alright.  
Whispers and dreams, [...], I can't believe you and me  
Survived.  
God it hurts sometimes, but such is life...

Whatever it comes to, I'm not gonna lose you.  
Whatever we go through, I just wanna love you...

I just wanna love you...
