Do you remember the good old days?
An empty stomach and a tear-stained face
Do you remember how it used to be?
The walking dead in the factory
I won't talk because
It's not as it was
You don't want the sack
Then don't doff your cap

{we are not going back} don't back pedal down a
broken track
{we are not going back} "i'm alright jack" is an easy
trap
{we are not going back} no more need for wearing all
black
{we are not going back} "i'm alright jack" is an easy
trap

Do you remember the dail pain
Of walking arouhnd with a ball and chain?
Do you recall when it was hard buyt fair?
You got your share on a line of a prayer.

Please put in my box
Some money for socks
Don't turn back the clocks
It's not as it was

{we are not going back} don't back pedal down a
broken track
{we are not going back} "i'm alright jack" is an easy
trap
{we are not going back} no more need for wearing all
black
{we are not going back} "i'm alright jack" is an easy
trap
