No dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)

No dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)

All the bruises come at once  
Connect the dots of the pretty ones  
Take a beating, get your switch  
Can I reach up? Can you quit? Nope  
Stick out your tongue

No dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)

No dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's right)

Mold a mind of a user  
Our love is tied a bit looser  
Lower I've got a soother, scolder  
Stick out your tongue, that's right

Wise a little focus in  
Read your mirror, kill again  
Whose the power, whose the meat

Wash your mouth out, make them bleed  
Go on, stick out your tongue

Mold a mind and abuse it  
Power might have a loser  
Slower I've got a soother, glower  
Stick out your tongue, that's right

I'm a derelict man with a black and white tan  
Gonna get a 'lectric window, yellow Cadillac man  
Selling livers in a bucket through a Chico fan  
To make one small tripper suck a [Incomprehensible]  
[Incomprehensible]

I'm a derelict man with a black and white tan  
Gonna be 'lectric window, yellow Cadillac

No dumb wrong  
(Stick out your tongue, stick out your tongue, that's  
right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's  
right)

No dumb wrong  
(Stick out your tongue, stick out your tongue, that's  
right)  
I'm dumb wrong  
(Stick out your tongue, stick out your tongue, that's  
right)
