It's not anything like a morning
When you call everything white
It will be a mouth of white for you
So it was, so it was like a mouth of night
A mouth of night
Shores are not the loved ones
So don't kill a star
First time as a sun I was watching
The night I was scared like a sun
Husbands never kill a bar covey
The husband never killed a sun
This is a bid for anyone
Will shift a sand
Anyone will shift a sand
Guns sharing this long sky
You miss the sky
If you kill a morning star
It'll end like a chaos
If you see a morning star
It'll end like a mouth of shoeshine
